REPORT OF FULLER PUBLIC LIBRARY

We submit herewith report of Fuller Public Library for the fiscal year ending Jan. 31, 1932.

We wish to express our appreciation of the many gifts of books and magazines. At a meeting of the trustees held in March it was voted to open the Library Reading Room on Sundays from 2 to 5 p. m. Since this lengthened the hours of the Librarian she asked for an assistant. The trustees voted to raise her salary \$100, beginning Feb. 1st, 1931. With this increase she provides her own assistant.

The Librarian reports 23,106 books loaned during 1931 compared with 18,125 loaned during 1930.

Of the \$12,000 left the Library by the late Sarah A. White, \$8,000 is deposited in the Hillsboro Guaranty Savings Bank and \$4,000 in the New Hampshire Savings Bank at Concord. Because of the delay in settling the estate the Library received \$1,230 back interest, and \$600 of this was deposited in the Amoskeag Savings Bank at Manchester. Because of this back interest it has not been necessary to draw any interest on the deposits. By the terms of the will the interest only can be used and the use of that is restricted to the purchase of books and periodicals. This makes it necessary for the town to raise a sum sufficient to cover the running expenses of the library.

TOWN SCHOOL DISTRICT WARRANT

The State of New Hampshire

To the Inhabitants of the School district in the town of Hillsborough qualified to vote in district affairs:

You are hereby notified to meet at the Lower Village School House in said district on the tenth day of March, 1932, at two o'clock in the afternoon, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the Board of Education for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the Board of Education and Truant Officer, and fix the compensation of any other officers or agents of the district.
- 6 To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
8. To see if the district will vote to make any alteration in the amount of money required to be assessed for the ensuing year for the support of public schools and the payment of the statutory obligations of the district, as determined by the school board in its annual report.
9. To transact any other business that may legally come before said meeting.

Given under our hands at said Hillsborough this 18th day of February, in the year of our Lord nineteen hundred and thirty-two.

LENA M. BROCKWAY,
ANDREW J. SARGENT,
HENRY W. ADAMS,
Board of Education.

REPORT OF THE TOWN SCHOOL DISTRICT

For the Fiscal Year Beginning July 1st, 1930, Ending
June 30, 1931

To the Inhabitants of Hillsborough Town School District:
The Board of Education of the Town District respectfully submits its annual report with that of its Treasurer, Superintendent and Auditors.

There have been seven schools maintained in the District, and the work accomplished deserves much credit for the pupils and teachers.

We are very grateful to the citizens of the district for their co-operation in all our efforts, and their generous appropriations of money for our use. We have tried to give all expenditures our conscientious consideration and hope that when you have carefully examined the reports of your district officers, they will meet with your approval.

We will be pleased at the annual meeting to advise in regard to the work that has been done, and to recommend the appropriations necessary for the fiscal year beginning July 1st, 1932, ending June 30th, 1933.

LENA M. BROCKWAY,
ANDREW J. SARGENT,
HENRY W. ADAMS,

Board of Education.

We had no teacher without previous experience, although it was Mrs. Gilchrist's first year with us. ("s" after the name of a normal school indicates that the summer session only was attended.)

The next is a table of attendance and tardiness:

School	% Attend.	Tardy No.	Cases per pupil	Not Abs't or tardy	Vist.
Bear Hill	98.9	0	0	1	42
Lower Village	97.9	0	0	5	60
Merrill	98.3	3	.2	4	26
Flat	97.3	2	.3	2	70
Center	96.8	8	.5	0	39
Upper Village	96.6	82	3.3	0	12
Goodell	95.9	9	1.0	3	21

The feature of this table that invites attention is that two of our schools, the Bear Hill School and the Lower Village School, had not a single case of tardiness during the whole year, and the Lower Village School was our next to largest school. The Lower Village School also has the largest number, 5, on the honor roll of perfect attendance. The last column, the number of visitors, does not seem to have much to do with the rest of the table. But it does have a very close relationship, because both the attendance of the pupils in school and the number of visitors to the school indicates the interest of the parents in the children and the school. Notice that the number of visitors to the two schools standing highest in percentage of attendance is 102, compared with only 33 in the two schools that stand lowest in the percentage of attendance. The larger number of visitors at the Bear Hill School and the Lower Village School is not due to the fact that there are more pupils in those schools, because there are not. There are 22 pupils at the Bear Hill and Lower Village Schools, and 34 at the Upper Village and Goodell Schools. For that reason more visitors would be expected at the latter schools. Co-operation among parents, teachers and pupils is necessary for best results.

There were 174 days of actual teaching this year, compared with 189 days in one school in the state. We should have 180 days of actual teaching in the school year, and in order to more nearly approximate that number, I recommend a school year of 37 weeks, which, with days out for one reason or another, may more nearly reach 180 of actual teaching. The school board made 33 visits to the schools, and the superintendent of schools made 187 visits of supervision and inspection.

Although there have been playgrounds, fences, equipment and somewhat extensive repairs made in and around our school buildings, the cost of running our schools has been surprisingly low. The State Department has sent out two tables which give these costs. One gives the current cost of public education per \$1,000 of equalized valuation, and the other gives the per pupil cost of the public elementary schools.

The current cost of public education per \$1,000 of equalized valuation varies from \$3.04 to \$23.48. The figure for the Hillsboro Town District is \$7.82. In 182 of our 243

school districts the cost per \$1,000 of equalized valuation is higher than in our own district. From the second table I find that the per pupil cost of public elementary education varies from \$50.40 to \$488.30, and the figure given for our district is \$122.96.

The second annual speaking contest for pupils of the seventh grades was sponsored by the Parent Teacher Association. The contest was held at the Lower Village Chapel, at 7:45 p. m., April 2nd. Seven pupils took part, and the judges conferred the prizes as follows: First prize, Mildred Peasley, speaking "The Highwayman;" second prize, Frances Murdo, speaking "The Little Light," and third prize, Ernest Swett, speaking "Staying Home Alone at Night."

Graduation exercises were held in the Chapel at 7:45, June 10, with twelve graduates. The theme for graduation was "Transportation," each graduate taking a different phase of the subject, such as "Pioneer Transportation," "Inventors Who Have Improved Transportation," "The Conquest of the Sea," "Development of Railroads," "Automobiles," "Airplanes" and "Submarines."

SPECIAL SCHOOL DISTRICT WARRANT

State of New Hampshire

To the inhabitants of the Special School District in the town of Hillsborough, qualified to vote in district affairs:

You are hereby notified to meet in the High School Building in said District on Friday, the 11th day of March, 1932, at seven o'clock in the afternoon to act on the following subjects:

1. To choose a moderator, clerk and treasurer for the ensuing year. One member of the Board of Education for the ensuing three years, and any other necessary district officers.

2. To hear the reports of the Board of Education, Treasurer and other officers and committees heretofore chosen and pass any vote relating thereto.

3. To raise such sums of money as may be necessary in addition to the amount required by law for the support of Schools, repairs on buildings, payments on debt, and any other necessary charges arising within said District.

4. To choose auditors, agents, or committees in relation to any subject embraced in this warrant.

5. To transact any other business that may legally come before said meeting.

Given under our hands this 25th day of February, in the year of our Lord nineteen hundred and thirty-two.

WILBUR T. TUCKER,
GEORGE W. BOYNTON,
MABEL A. CROSBY,

Board of Education.

REPORT OF BOARD OF EDUCATION

We present herewith the report of the Board of Education for the year ending June 30, 1931.

The following amounts for the school year, commencing July 1, 1932, are our estimates of the required expenses:

High School	\$10,756 00	
Elementary School	9,840 00	
District Officers	225 00	
School Census	20 00	
Superintendent's Salary	525 00	
Per Capita Tax	664 00	
Payment on Debt	4,000 00	
Interest on Debt	2,385 00	
Repairs	166 87	
	<hr/>	\$28,581 87

We expect about \$3,550.00 in addition to the amount raised by taxation and for that reason we recommend that the sum of \$25,031.87 be appropriated for the school year commencing July 1st, 1932.

The sum of \$166.87 for repairs is the balance left over from the \$1,400.00 appropriated for installation of the new boiler last year.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board of the Hillsborough Special School District; I respectfully submit this report for the school year 1930-1931, my thirteenth annual report.

One high school cadet was added to our list of teachers. The following table gives some facts concerning our teachers.

Grade	Name	Salary	Experience		Education	State App
			Dist.	Total		
All	Lena C. Ball	\$283.33	8	9	Sch. of Music	L

Janitors—High School, Irving Jones; Grammar School, Frank Crosby.

The salaries paid Mrs. Ball and Miss Messer are for part time work. We had four new teachers, Miss Louise Curran, a Keene Normal Graduate, taught for me last year in Antrim with success, and came to us at a higher salary. Miss McConnell, our Domestic Science teacher, had no teaching experience and was graduated from the Keene Normal School in June, 1930. Miss Ilene Murdo is a Hillsboro girl, a graduate of the Hillsboro High School, and the Keene Normal School, came to us as our sixth grade teacher. We were all sorry to have Mr. and Mrs. Morgan leave us, but Mr. Morgan had an offer which he

felt to be an advancement, so felt it his duty to accept. We were, however, very fortunate in obtaining as his successor, Mr. A. L. Welcome, who during his year with us has done good work scholastically, athletically and in that intangible matter of school spirit.

The current cost of public education per \$1,000 of equalized valuation, according to a report from the State Department of Education, varies in New Hampshire from \$3.04 to \$23.48. The figure for Hillsboro is \$13.02. The per pupil cost of public elementary education in the state varies from \$50.40 to \$488.30; for this district it is given as \$50.47. Only one district in the state has a lower per pupil cost for elementary schools. As for per pupil cost of public high schools in the state, it varies from \$11.41 to \$281.50. This figure for Hillsboro High is \$105.72. From these figures it would appear that our schools are run at a reasonable cost, at least.

The following table is part of the information published by the State Department:

	Hillsboro	State
Percent of pupils left school	.9	10.3
Percent of attendance	97.2	96.3
Tardinesses per pupil	.6	.9
Pupils per teacher	18	16.9
Number of school days	174	178

This table means that we are keeping our pupils in high school slightly better than the average, that our attendance and tardiness record is better, although we do have more pupils per teacher, or in other words not as many teachers per pupils as the average. The last item in the table is of interest to me. There are high schools in the state having 185 or more days of school per year, one even has as high as 189 days, which is just three weeks more than we had this year. Getting more of what one really needs for the same money is true economy. I have more than once recommended a longer school year, and I am doing so now. Why would it not be a good idea, especially now that economy seems especially necessary, to prolong our school year.

We are again pleased with the standing of our graduates in college. There are 25 high schools classified

with us as to size, and among those we have stood as follows during the past five years:

1926-27	we stood eleventh
1927-28	eleventh
1928-29	seventh
1929-30	third
1930-31	third

In the annual scholarship day tests at the Normal Schools in May two of our three teams took first place. The annual essay prizes were won by Olive Colby, first prize; Rosamond Cole, second prize; Ruth Flanders, third prize; and Harry Brown, honorable mention. Violet Nichols received the S. A. R. Good Citizenship Medal. Rosamond Cole received the Haslet Scholarship, and Donald Harrington received the Butler Scholarship. Rosamond Cole was the Valedictorian and John Holden the Salutatorian, of the high school graduating class, and the grammar school honor pupils were Marie Proctor, Cynthia Scruton, Louise Brzozoski, and Elizabeth Cutter. The high school graduation and reception were held in the high school gymnasium on Thursday, June 11, and the grammar school graduation took place in the same place on June 12th at 2 p. m.

The grade distribution of our pupils is as follows:

Grade	Enrollment
1	28
2	42
3	34
4	35
5	34
6	26
7	21
8	43
High	117
Total	380

Your superintendent gave a talk, comparing our schools and school work of ten years ago, with those of this year, and it has been suggested that a part of that talk be incorporated in this report, and so what follows will be an abstract from that talk.

In 1920 we had 11 teachers, today we have 16. Six of the 11 had certificates, and 11 of the 16 have them; an increase from 54 per cent of the faculty to 69 per cent, and at present four of the five not having certificates have not taught long enough to receive them. A certificate is given to teachers, not our Normal Graduates, only after they have passed certain tests and have had a certain amount of experience.

Since 1920 we have outgrown the one building then in use, and now have two buildings comfortably filled, the new building especially, being a credit to the town. How the boys of a decade ago did long for a gymnasium in which to play basket ball! How often we canvassed the possibility of using this hall or that hall, only to find it impossible in some way or other, and the only opportunity to practice was in our opponents' gym, before the games. The boys of that day played a good game indeed, although they could not reach the goal attained by both our boys and girls this year. Very few, outside of school officials and teachers, realize what a help our gymnasium is to the school.

In 1920 salaries ranged from \$850 to \$1600, averaging \$903. The present salary range is from \$950 to \$2400, with an average of \$1062. That increase in salary may seem to good, but it has not kept up with the progress in the state as a whole. I have data on the per pupil cost for teacher's salary in the state, and I will use those figures for purposes of comparison. In 1920 the state's per pupil cost for teachers' salaries was \$35.64, while ours was \$34.85, lower than the state average, but not much lower. Last year the state's figure was \$55.66, while ours was \$44.44, only 80 per cent of the state's figure. The state as a whole has increased its teachers' salaries \$20.00 per pupil, while we have increased ours \$10.00.

Only two teachers are now with us who have been with us ever since 1920, and I can think of twelve teachers now in the High School from which I came to Hillsboro, who were there when I came here in 1919. It is well to keep good teachers. I do find a great improvement in this matter, however, since in 1920 the teachers had held their positions an average of only 2.8 years, while our teachers this year have been here an average of 6.3 years.

In 1920 two of our teachers were college graduates, and they had been out of college an average of 12 years. This year we have three college graduates, who have been out of college an average of four years. All our regular teachers have certificates, except four who have not yet had sufficient experience. While we are considering the qualifications of our teachers, it may be well to say that Deputy Commissioner May in a recent report said that 26 per cent of the teachers eligible for the secondary examinations pass them; while 100 per cent of those from Hillsboro passed. He commended Hillsboro's record.

In my annual reports I have constantly invited you to visit schools at regular class times. Visiting the Hillsboro teachers 418 times this year, about one visit per teacher each week, has taught me to respect their ability and their sincere desire to help your children. I am proud of my teachers, and if it should happen that you are not, please take it as a fact from one who has been in the business for several years, who is the son and grandson, the husband and the father of teachers, that you should also be proud of them. If you visited them oftener, you would surely wonder at their patience, instead of blaming them for occasional lapses; for to err is human, you know.

However, what an improvement there has been along this line. Formerly we had 297 visitors. This year we had 754. We are surely pleased at that, and hope you may keep it up. Of course these 754 visits do not mean that 754 different parents visited schools, because some parents visit schools several times. I have what I call an Honor Roll of the names of such visitors, and find that in the first five weeks this year, just 30 different parents have visited the Grammar School. Board members are also visiting schools oftener than formerly. In 1920 we had six visits from school board members, while this year we had 19. This is a greater encouragement to your teachers and a greater incentive to them to do their best, than you imagine.

The studies offered in our elementary school are those offered in practically all New Hampshire schools, as we follow a program approved by the State Board of Education, and made out largely according to the suggestions of the teaching force. The program followed by the high

school is made out by the superintendent, consulting with the high school headmaster, receives the approval of the local school board, and then is sent to the Commissioner, who must give it his approval before it is used. If any deviations from the program seem wise, during the school year, such changes have the approval of the Commissioner, usually given through the high school agent. We have made a few changes in our high school program, offering an extra year in English, no longer requiring Algebra from all pupils, but allowing them a choice, adding courses in Sociology and Economics and increasing the work in the Commercial Department.

We have now shown an improvement in teacher preparation, in the accommodation of our pupils, in increase in teachers' salaries, (although we are not yet up to the state average), in lengthening the teachers' tenure of office, in having fewer inexperienced teachers, in attendance of the pupils, in an increase in the number of visitors, in curriculum formation.

Now for the last point of all. What about our scholarship? Do our pupils get what they ought to expect along this line? Parents should remember that the Hillsboro High School can and does fit its graduates for any college. But they must also remember that each college has a particular line of work in which it specializes, and it is almost a certainty that if a pupil delays his choice until the last weeks of his senior year, he will find that he is not prepared. It is almost necessary to decide early upon his college, and then consult the headmaster or the superintendent as to the particular preparation best fitting one for that college. Any graduate of our high school, who has done good work in any of the courses, may enter New Hampshire University. But he cannot enter certain courses in the university unless he has taken certain work in high school. I have had four children enter college, and in each case I have written to the college they planned to attend, saying that my child had taken for two years certain work, that it was the intention to take other work, which I mentioned, for the next two years, and asked if that work well done would prepare for entrance to that college. I advise that course for every parent expecting to send a child to college. Remember that this was done at

the close of the second year, giving ample time for adjustment if necessary.

Many standard accomplishment tests have been given: and the pupils both in the grammar and high schools, have been found to be above the standard for their age and grade. Teachers, superintendent and the State Department have given these tests, with the same result. The State Department has for the past two years been holding what is known as Scholarship Day at the two Normal Schools. Each high school in the state is invited to send three teams to this meet, each team take examinations in some one subject chosen from a list given by the State Department. This year we sent teams in Algebra, Arithmetic and Geography. Our Algebra and Arithmetic teams stood first among all schools taking those tests.

Respectfully submitted,

A. A. HOLDEN,
Superintendent of Schools.
